DETAILED ACTION

Reason for allowance

1. Claims 1-9 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed **COLOR DISPLAY DEVICE** having the limitations:

-- " a first thin film transistor for selectively supplying a signal corresponding to a display information to the pixel region; and a storage capacitor connected to the first thin film transistor for retaining the signal corresponding to the display information; wherein the plurality of pixel regions are of equal length in a first direction, while a pixel region correlated to a predetermined color component is, in a second direction, of a length which differs from a length of a pixel region correlated to at least one other color component; and a channel length direction of the first thin film transistor is arranged along a third direction intersecting the first direction, and a plan view distance obtained by projecting onto a display plane surface an extent from an end portion of a gate of the first thin film transistor to the storage capacitor is identical in the respective pixel regions. "--

and all other limitations as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
